ACCELERATE YOUR *Opportunities*

Associate of Arts in Business Administration

The adult accelerated undergraduate programs at Benedictine University.

Associate of Arts in Business Administration

THE ASSOCIATE OF ARTS (A.A.) IN BUSINESS ADMINISTRATION PROGRAM AT BENEDICTINE UNIVERSITY is designed to introduce students to the foundations and principles of business management and leadership, incorporating practical applications of theory and engaging students in the core elements of a properly functioning business.

Courses in management, business statistics, psychology, economics and accounting give students the basic structure and functionality of essential business principles that business managers need to be effective leaders within an organization.

Students learn how proper communication and writing skills, general ethics and socioeconomic attitudes play important roles in excelling within business administration. Additional courses examining the impact of nutrition and entrepreneurship give students a well-rounded approach to viewing an individual's role in contributing positively within a business environment and society.

All courses are based on adult learning principles and are delivered in a blended format that combines the most effective aspects of live instruction with self-directed online learning. The A.A. in Business Administration is offered in an evening accelerated learning team format providing students with the knowledge, skills and creative problem-solving ability demanded by today's modern workplace.

Students also enjoy the benefits of a strong, values-based education with all the convenience of an adult learner setting.
