

Internet Explorer 11 - Setting a Website to Display in Compatibility View

1. In Internet Explorer, click on the **Tools** menu. Unless you have the menu bar enabled,

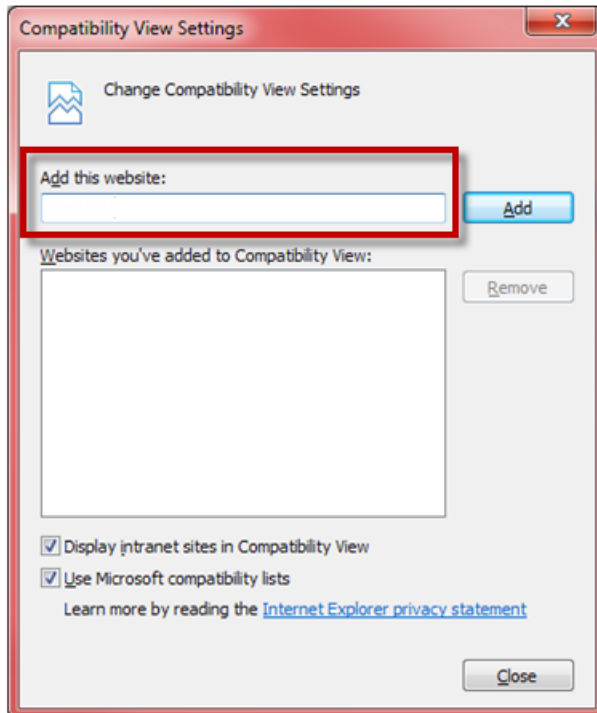

this will be a gear icon:

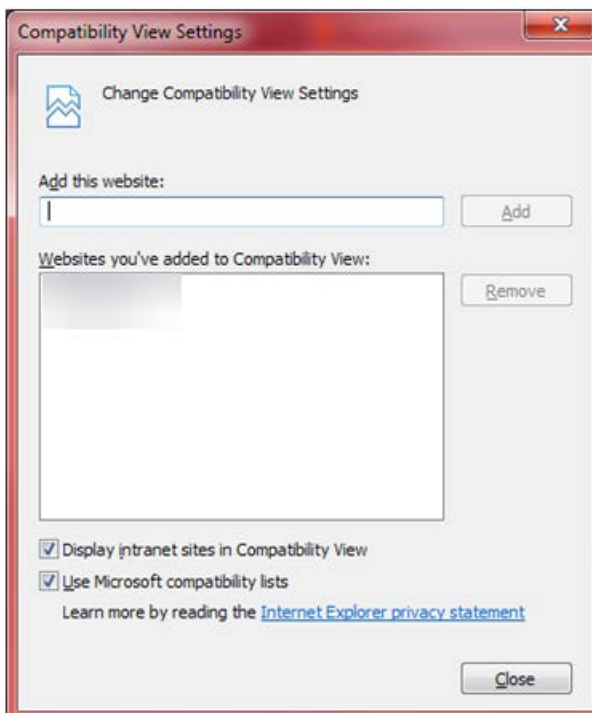

- o **Note:** You can display the menu bar by either: 1) pressing the ALT key or 2) right-clicking the Address bar and selecting **Menu bar**.
2. Click **Compatibility View Settings**.

3. Under **Add this website**, enter the URL of the site you want to add.

4. Click **Add**.
5. The list should look like the following if you added the typical websites.

6. Upon reloading the webpage, content should display properly.
7. **Note:** By default, IE11 is set to clear your browser history when you quit, which also clears the list of websites added to Compatibility View. To disable this setting:

1. Open the **Tools** menu as described in step 1 above, then select **Internet Options**.
2. Under the **General** tab, uncheck the **Delete browser history on exit**, then click **Apply**. If you do not disable this setting, you will need to recreate this list every time you launch IE.
