Steven Gravelle is Associate Professor of chemistry at Saint Vincent College, where he has been teaching since 1991. His teaching load is devoted mainly to courses for science, engineering and math major, but he also teaches a course for non-majors entitled Chemistry of Art. Steve is a big proponent of active, collaborative learning and has incorporated process-oriented guided inquiry learning into his classrooms and labs since the early 2000’s. He has given numerous presentations and workshops on the Science Writing Heuristic and has co-authored a chapter in “Exploring More Signature Pedagogies” that draws a link between undergraduate research and the use of the Science Writing Heuristic in teaching labs.

Steve is currently serving as Faculty Council President and the director of the Teaching Enhancement and Mentoring Program at Saint Vincent College.
