## Police News

June 2007 Issue 10

### Campus Parking During Off Season

University Police would like to remind the campus community that even though regular classes are over for the summer, you must still park in appropriate areas.

Motorists should not be parking in access roadways, maintenance drives or other non-traditional roadways.

University Police will continue to remind illegal parkers to move their vehicles to the correct locations as we encounter them. And in addition, we will also notify the community by issuing Parking Alerts when the campus expects large events on campus which may effect parking.

### University Police received equipment from the State of Illinois grant...

Benedictine University Police received emergency communications radios that link with the Village of Lisle Police, Lisle-Woodridge Fire Department, DuPage County Sheriff's office and other Emergency Management agencies.

This equipment is valued at approximately \$4,500.00.

### Do you know who I am?

**Security Officer  
Larry Cunningham**

I'm assigned to the Moser Center in Naperville. I have worked for Benedictine University for about (10) years. Prior to the creation of the Benedictine University Police, I was a security shift supervisor.

### New Security Technologies!

Benedictine University Police will be adding the latest in motion sensitive closed circuit television cameras at all access points to the residence halls on campus. These new CCTV cameras will monitor and record all activities at those locations in conjunction with a keyless entry system based on current student identification cards.

Benedictine University Police are in high hopes that this new technology will aide in the protection of our students.
