WHY STUDY HEALTH SCIENCE AT BENEDICTINE MESA?

If you are interested in a health-related career and want a challenging yet flexible academic preparation, you may choose to major in Health Science at Benedictine University Mesa. Our program offers you the opportunity to design your curriculum with more freedom and flexibility than is the case with most majors. It prepares you for further study toward careers in medicine, dentistry, pharmacy, physical or occupational therapy, podiatry, veterinary medicine and other health-related professions. At Benedictine Mesa, students will excel in a small classroom environment with faculty and staff who are experts in their fields.

SAMPLE COURSES:

- MATH 1111: College Trigonometry
- CHEM 2243: Organic Chemistry/Lab
- BIOL 3203: Human Anatomy
- BIOL 2229: Biostatistics
- BIOL 3258: Human Physiology
- BIOL 2250: Genetics

BENEDICTINE IS IN CO+HOOTS

The CO+HOOTS Institute for Entrepreneurship at Benedictine will begin in the Fall of 2020 and offer BenU Mesa students a safe environment to learn and launch a potential business under the guidance of practicing, experienced, and successful entrepreneurs. The four-year intensive immersion program will develop and support the growth of our students’ innovative and creative ideas. Applications are now being accepted!

FOR MORE INFORMATION, VISIT OUR WEBSITE AT BEN.EDU/MESA
At Benedictine Mesa you will find not only academic excellence in a well-rounded liberal arts environment, but also a values-based community in the Catholic, Benedictine tradition. You will receive individual attention and unique opportunities to build a resume that will prepare you to step out into the world upon graduation. Our faculty, who are experts in their fields, will inspire you, while our academic and career counselors will help guide and prepare you for life after college.

The people I am surrounded by at BenU Mesa are incredible! I have not only made life-long friendships, but I have been able to grow in my faith and my academics. All of the faculty are extremely eager in wanting to help me achieve my lifelong dream of being an athletic trainer and helping student-athletes achieve great athletic success. The Health Science classes are so interesting, and the faculty make learning easy. I love that I am able to have close relationships with my professors. I know that I can approach them about any concerns I’m having with my classes.”
