A Mutual Commitment to a Safe University

Benedictine University (the “University”) is dedicated to providing a safe and secure environment for all members of the University community who study, live, and work at our Lisle, Illinois main campus and our branch campus in Mesa, Arizona. Each campus has its own department responsible for safety and security. The Lisle main campus is served by the Benedictine University Police Department (BUPD); a law enforcement agency that is comprised of sworn peace officers, civilian dispatcher/community services officers and the Emergency Preparedness Manager/Safety Specialist. The Mesa campus is served by several public safety civilian staff who collaborate with local police authorities to provide safety and security.

Lisle PD, BUPD and the Mesa public safety staff are available for presentations to classes, student groups and other campus entities. Topics may include crime prevention, personal safety, alcohol/drug awareness, violence in the work place, and bystander intervention.

The officers and support personnel are a dedicated, well-trained group of professionals who take pride in their service to the University. The department values the partnerships it has developed with the students, faculty, staff, visitors, and neighbors, and believes that community relationships are the key to building trust and safety for all.

Reviewing the information outlined in this report will increase your awareness and help you understand the high level of commitment to safety the University advocates. Please feel free to directly contact the Lisle BUPD at 630-829-6122 or the Mesa public safety staff at 602-888-5516 with any questions, concerns, or comments about this report. If you are experiencing an emergency, please call 9-1-1.

A Guide to Safety at Benedictine University - Mesa Campus

In 1998, Congress enacted the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (20 USC § 1092 (f)) (or the “Clery Act”, which previously was known as the Crime Awareness and Campus Security Act of 1990). The Clery Act requires colleges and universities receiving federal funding to disclose reported instances of criminal activities on campuses. In addition to the disclosure of campus crime statistics, the Clery Act requires that timely warnings of criminal activity be disseminated to the campus community, as well as the disclosure of various campus policies. For more information on the Clery Act, please visit the Campus Security Web Site of the U.S. Department of Education, Office of Post-secondary Education, at: <http://www2.ed.gov/admins/lead/safety/campus.html>. The Clery Act is intended to assure that students and their families, as higher education consumers, have access to accurate, complete, and timely information about safety on campus so that they can make informed decisions.

Procedures for Preparing and Distributing the Annual Security Report

The Chief of Police and the Emergency Preparedness Manager in Lisle is responsible for preparing and distributing the Annual Security Report to comply with 34 CFR 668.46 of the Clery Act for the Mesa campus. The Annual Security Report is published annually by October 1 and contains three calendar years of campus crime statistics and certain campus security policy statements in accordance with the Clery Act. This required statistical information is presented in this Annual Security Report. The Annual Security Report also informs individuals how to report crime to University officials or local law enforcement agencies on a voluntary and confidential basis. Security policies include **immediately** reporting crimes and emergencies, security resources, crime awareness and prevention, security of campus facilities and residence halls, and alcohol, drug and weapons violations.

Reporting of Criminal Offenses, Emergencies, and University Response

University community members – students, faculty, staff, and guests – are encouraged to report all crimes, emergencies and public safety related incidents to the Campus Safety in an accurate, prompt, and timely manner. Campus Safety has been designated by the University as the official office for campus crime reporting. Accurate and prompt reporting ensures Campus Safety is able to evaluate, consider and send timely warning reports, disclose crimes through ongoing disclosure processes such as the posting of crimes in the Daily Crime Log and accurately documenting reportable crimes in its annual statistical disclosure. The University further encourages accurate and prompt reporting to Campus Safety and/or the local police when the victim of a crime elects to, or is unable to make such a report. This publication focuses on Campus Safety because it has primary responsibility for patrolling the campus and it has been designated as the institution’s primary reporting structure for crimes and emergencies. However, criminal incidents or incidents off campus can be reported to the Mesa Police Department. The Mesa Police Department is located at 130 North Robson, Mesa, Arizona 85201 and can be reached at 480-644-2211 or in the case of an emergency, 9-1-1.

Campus Safety staff are available from 6:15 a.m. to 8:30 p.m. Monday – Friday and 8:00 a.m. to 5:00 p.m. Saturday. Campus Safety procedures require an immediate response to emergency calls. Campus Safety work closely with local and county resources to assure a timely response to emergency calls. Priority response is given to crimes against persons and personal injuries. Campus Safety respond to all reports of crimes and/or emergencies that occur on campus, adjacent to campus within its public property reporting area. In response to a call, Campus Safety will take the required action, dispatching an officer or asking the victim to report to Campus Safety to file an incident report.

Responsibilities of the Benedictine University Community for their own Personal Safety

Members of the University community must assume responsibility for their own personal safety and the security of their personal property. The following precautions provide guidance:

- Report all suspicious activity to Campus Safety immediately;
- Never take personal safety for granted;
- Try to avoid walking alone at night. Use the Campus Safety escort service;
- Limit your alcohol consumption, and leave social functions that get too loud, too crowded, or that have too many people drinking excessively;
- Carry only small amounts of cash;
- Never leave valuable (wallets, purses, books, phones, laptops, etc.) unattended;
- Carry your keys at all times and do not lend them to anyone;
- Lock car doors and close windows when leaving your car;
- Always lock the door to your residence hall room or apartment, whether or not you are there. Be certain that your door is locked when you go to sleep, and keep windows closed and locked when you are not at home. **DO NOT PROP OPEN INTERIOR OR EXTERIOR DOORS;**
- Do not leave valuables in your car, especially if they can be easily noticed; and
- Engrave serial numbers or owner's recognized numbers, such as driver's license, on items of value.

Confidential Reporting

Campus Safety encourages anyone who is the victim or witness to any crime to promptly report the incident to Campus Safety. When a report is made to Campus Safety, they must investigate the incident and cannot hold reports of crime in confidence. With the information investigated from the crime, the University can keep an accurate record of the number of incidents involving students, employees and visitors; determine where there is a pattern of crime with regard to a particular location; method, or assailant; and alert the campus community to potential danger. Reports filed are counted and disclosed in the annual crime statistics for the institution.

It is understood that not everyone is comfortable speaking with the police. We urge you to speak with your supervisor, any senior University official or Human Resources should you become aware of any act or omission, which you think violates the law or University policies or procedures.

Benedictine University has an obligation and commitment to conduct business legally and ethically. It is our policy to prevent violations of the law or other improper business conduct and detect and remedy violations should they nonetheless occur. In keeping with this obligation, employees are expected to conduct themselves ethically and honestly. Furthermore, it is the responsibility of every employee to report any illegal, unethical or improper activities. Should you need to report situation that may conflict with this statement, you are encouraged to speak with your supervisor, an appropriate management representative or Human Resources. You may make an anonymous report by using the Anonymous Reporting Tool at: <https://www.ben.edu/compliance/statement.cfm>. Anonymous reports can be made 24 hours a day/7days a week.

Policy Statement Addressing Counselor Confidentiality

The University “Pastoral Counselors” and “Professional Counselors,” when acting as such are not considered to be a campus security authority and are not required to report crimes for inclusion in the annual security report disclosure of crime statistics. As a matter of policy, the professional counselors are encouraged if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary confidential basis to the Mesa Police Department.

Counselors are defined as:

Pastoral Counselor – A person, who is associated with a religious order or denomination, is recognized by that religious order or denomination as someone who provides confidential counseling, and is functioning within the scope of that recognition as a pastoral counselor.

Professional Counselor – A person whose official responsibilities include providing mental health counseling to members of the institution’s community and who is functioning within the scope of his or her license or certification. This definition applies even to professional counselors who are not employees of the institution, but are under contract to provide counseling at the institution.

All information with regards to counseling remains confidential, except in situations where there is a threat to life and safety. The Early Alert Team (EAT), Campus Safety, Campus Ministry and outside professional agencies, work together to minimize any threat to one’s self and the entire internal and external campus community. Information on EAT can be found at: <http://www.ben.edu/mesa/campus-community/early-alert-team.cfm>

Violence Against Women Act and Title IX

The Violence Against Women Reauthorization Act of 2013 (VAWA) amends the Clery Act expanding the scope of this legislation in terms of reporting, response, and prevention education requirements around rape, acquaintance rape, domestic violence, dating violence, sexual assault, and stalking. Sexual violence primary prevention and awareness programming shall be provided for all students who attend one or more class on campus annually. In addition, we require all staff and faculty to complete online training annually. We have designed an in-house training program delivered virtually with students, faculty and staff attending via Zoom. We have taken the training and added it to our learning management system, D2L, for those that could not make the scheduled Zoom times.

Benedictine University expects its Trustees, officers, faculty, staff and students to cultivate an environment that allows members of the University community to enjoy the full benefits of their work or learning experience. It is, therefore, the policy of the University to comply with Title IX of the Education Amendments of 1972 (“Title IX”), which prohibits discrimination based on sex (including sexual harassment and sexual violence) in the University’s employment, educational programs and activities. Title IX also prohibits retaliation for asserting or otherwise participating in claims of sex discrimination. Such behavior seriously undermines the University’s effectiveness as an educational institution and a workplace.

A person who has been a victim of sexual assault is strongly encouraged to **immediately** report the crime. Victims are strongly urged to preserve all physical, trace and serological evidence, to include clothing, bedding and body fluids, associated with the assault, to ensure a successful criminal prosecution, or administrative sanction against the offender, if desired. The University will provide written notification to students and employees about existing counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid, and other services available to victims, both within the University and in the community. Upon request, assistance will be provided in changing academic schedules and living arrangements.

Any person may report conduct alleged to be sex discrimination or sexual harassment to the Title IX Coordinator, to any University Official with Authority, and/or to law enforcement without filing a Formal Complaint. However, a delay in reporting may compromise the subsequent investigation. No member of the University community may discourage an individual from reporting alleged incidents of sex discrimination or sexual harassment.

The Victim's Bill of Rights is addressed in Article II of the Arizona Constitution. Further, Crime Victim's Rights are outlined in A.R.S. Title 13, Chapter 40 to ensure fair and compassionate treatment for victims and witnesses of crime. Arizona victims' rights law provides that victims have the right to receive timely notice of criminal proceedings in their cases. Victims have the right to be present in the courtroom during all proceedings involving the defendant. The Victim's Bill of Rights and related statutes ensure that victims are provided the opportunity to be heard at release, plea, and sentencing proceedings. These laws also provide for the safety of victims throughout the criminal justice process as well as their interest in avoiding unreasonable delays, their claims for restitution, and to be treated with dignity and respect.

Arizona Domestic Violence Act: Rights of Victims

Domestic violence is a crime. Any person, who hits, chokes, kicks, threatens, harasses or interferes with the personal liberty of another family or household member has broken the Arizona Domestic Violence law. Under Arizona law family or household members are defined as:

- Family members relate by blood;
- People who are married or used to be married;
- People who share or used to share a home, apartment, or other common dwelling;
- People who have or allegedly have child in common or a blood relationship through a child in common; and
- People who are dating or engaged or used to date; and

Domestic violence consists of physical assault, sexual abuse and stalking. The violence takes many forms and can happen all the time or occasionally. If you are in an abusive situation, you are urged to seek help. For off-campus resources refer to the following:

For employees who may have been a victim of a criminal act of violence, the University fully complies with the Arizona Revised Statute – Title 13 Criminal Code, [Section 13-4439](#), which gives employees affected certain rights for leaves of absence, protective measures in the workplace, and reasonable accommodations. More information about the University's policy may be obtained from Personnel Resources.

The Title IX Coordinator will consider the complainant's wishes with respect to the measures and explain to the complainant the process for filing a Formal Complaint.
- D. As soon as possible, but not later than 7 days of receiving a signed Formal Complaint of sexual harassment, the Title IX Coordinator will send written notice to the complainant and respondent of the allegations and a copy of this Grievance Process. The notice will provide all of the following:

- F. The Title IX Coordinator will undertake an individualized safety and risk analysis to determine if the alleged sexual harassment presents an immediate physical threat to the health or safety of students or others, which would justify removing the respondent from an education program or activity on an emergency basis. - G. To the extent reasonably possible, the University will keep confidential the identity of any individual who has made a report or complaint to sex discrimination, including any individual who has made a report or filed a Formal Complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness in a Title IX grievance process except as permitted by FERPA, required by law, or as necessary to conduct the hearing or proceeding.

The University is responsible for gathering the relevant evidence sufficient to prove responsibility by a preponderance of the evidence and will complete the investigation within 45 days of the filing of a Formal Complaint. The time for the completion of the investigation may be extended in 5-day intervals with written notice to the parties explaining the reason for the extension.
- D. The Title IX Coordinator will notify the complainant and respondent of the individuals involved in investigating their case and inquire about the need for language interpreters or disability accommodations before the investigation begins.
- E. Neither the complainant nor the respondent is restricted from discussing the allegations under investigation or from gathering or presenting relevant evidence. Both are encouraged to present to the investigator, witnesses and other inculpatory or exculpatory evidence to prove or disprove responsibility.

Each is allowed to have an advisor of their choice present during the interview, but advisors are not allowed to participate in the interviews or meetings.
- G. Each party may submit relevant questions to be asked of the other party or any witness at the investigative interview. The questions must be submitted in writing to the investigator no later than 48 hours prior to the interview. Decisions to exclude questions as not relevant will be explained in the investigative report.
- H. The University investigators will not access, consider, disclose or otherwise use medical, or mental health treatment records of a party with the party's written consent.

Each party will have up to 10 days to provide any additional or new evidence; or submit a written response regarding the evidence subject to inspection and review, after which time the investigator will not be required to accept a late submission. The investigator will consider written responses timely received, and will generate the investigative report within 5 days or alternatively, may provide the parties with written notice extending the investigation for an additional 5 days and explaining the reason for the extension.
- J. The investigators will create an investigative report that fairly summarizes the relevant evidence and provide a copy of the report to the parties by a secure file share for their review and written response at least 10 days prior to a hearing to determine responsibility. If a party wishes to submit a written response to the investigative report, it must be submitted no later than 48 hours prior to the scheduled start of the hearing.

The Grievance Process – The Hearing

- A. The Title IX Coordinator will schedule a date for the virtual Hearing to take place by Zoom as soon as practicable after the completion of the investigative report, considering the scheduling needs of all to the extent possible. The Title IX Coordinator will send notice of the time and date to the parties, their advisors, the Adjudicator and the witnesses. This includes, but is not limited to, opinions and statements in police reports or other official reports, medical records, court records and filings, investigation notes of interviews, emails, written statements, affidavits, text messages, social media postings, and the like.

Gender-Based Violence Prevention Programs and State Definitions

Benedictine University Mesa values every member of our community. As such, the University prohibits acts of gender-based violence (sexual assault, domestic violence, dating violence, and stalking) against any student, faculty, staff, or visitor. Reports received of these crimes will be investigated by the Title IX office in accordance with the University Title IX Policy. To view the full policy, visit <http://www.ben.edu/compliance/title-ix.cfm>. It is also the University's policy to comply with all applicable federal and state laws for reporting and publishing statistics on the occurrence of sexual assault, domestic violence, dating violence, and stalking in our annual security report located <http://www.ben.edu/mesa/campus-community/public-safety.cfm>.

In order to prevent future crimes of gender-based violence (sexual assault, domestic violence, dating violence, and stalking) the university provides annual training and prevention programming to students, faculty, and staff.

When providing training and programming, Benedictine University considers the unique needs of our campus culture and provides programs that are:

- Culturally appropriate and inclusive of our diverse communities and identities;
- Sustainable, so programs can be provided annually to ensure the University's commitment to violence prevention;
- Responsive to the needs of our community to educate on local services; and
- Informed by research and evaluated for effectiveness.

The training and programming initiatives are available to all students, faculty and staff. Programs conducted during the 2020 calendar year can be found at:

<S:\Projects\DAAPP-CPAPSEP Presentation Logs\CPAPSEP\2020 CPAPSEP Logs\2020 CPAPSEP Presentations Mesa.xlsx>

We also consider the risks that may be inherent in our community on and off campus as well as protective factors that come from the safe and supportive environment that we strive to provide.

All of our programs include common themes. One important theme that guides our programming is the University's stance that violence will not be tolerated in our campus community. Some of the other topics that are covered in programming include:

- Definitions of sexual assault, domestic violence, dating violence, and stalking on the federal level which are used in University investigations;
- Definitions of these crimes in Illinois, which are used when they are reported to the University Police or local law enforcement. These definitions are particularly helpful if the victim choose to pursue the criminal justice process against the accused;
- Discuss safe and reasonable options for bystander intervention. We believe that in order to prevent violence, then it is everyone's responsibility to step up and work to ensure a safe community;
- Share information on risk reduction to decrease perpetration on our campus, reduce barriers for getting involved as a bystander, and empower individuals to know their options in situations that may feel unsafe; and
- Give information about the institution's disciplinary process, which can be found in our Title IX Policy found at <http://www.ben.edu/compliance/title-ix.cfm>.

As defined in 34 CFR 668.46 (j)(2) and the Arizona Coalition to End Sexual and Domestic Violence:

Awareness programs: The term awareness programs are defined as community-wide or audience-specific programming, initiatives and strategies that increase audience knowledge, and share information and resources to prevent violence, promote safety and reduce perpetration.

Bystander intervention: The term bystander intervention is defined as safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault or staking. Bystander intervention includes:

- Recognizing situations of potential harm;
- Understanding institutional structures and cultural conditions that facilitate violence (this might include fraternity or sports cultures at some institutions);
- Identifying safe and effective intervention options; and
- Taking action to intervene.

Ongoing awareness and prevention campaigns: The term ongoing awareness and prevention campaigns means programming, initiatives, and strategies that are sustained over time and focus on increasing understanding of topics relevant to and skills for addressing dating violence, domestic violence, sexual assault, and stalking, using a range of strategies with audiences throughout the institution and including information described in 34 CFR 668.46 (j) (1) (A) through (F).

Primary prevention programs: The term primary prevention refers to programming, initiatives and strategies informed by research or assessed for value, effectiveness, or outcome that are intended to stop dating violence, domestic violence, sexual assault, and stalking before they occur through the promotion of positive and healthy behaviors that foster healthy, mutually respectful relationships and sexuality, encourage safe bystander intervention, and seek to change behavior and social norms in healthy and safe directions.

Risk reduction: The term risk reduction is defined as options designed to:

- Decrease perpetration and bystander inaction;
- Increase empowerment for victims in order to promote safety; and
- Help individuals and communities address conditions that facilitate violence.

Survivor-centered: The term survivor-centered means a student who has experienced sexual violence, domestic violence, dating violence, or stalking that (i) ensures the compassionate and sensitive delivery of services in a nonjudgmental manner; (ii) ensures an understanding of how trauma affects survivor behavior; (iii) maintains survivor safety, privacy, and, if possible, confidentiality; and (iv) recognizes that a survivor is not responsible for the sexual violence, domestic violence, dating violence, or stalking.

Trauma-informed response: The term trauma-informed response is an understanding of the ways by which emotional, psychological, and physical effects of trauma can impact victims' cognitive processes, decision-making, memory, and behavior. A trauma-informed response is sensitive to these effects, and helps survivors to regain feelings of control and empowerment during each step of their involvement with social and legal systems. Services focus on trust and safety in order to mitigate additional trauma and facilitate healing. This response prioritizes the needs of survivors by giving them autonomy in determining their immediate concerns.

Victim-centered response: The term victim-centered response reinforces that sexual violence survivors are never at fault for the victimization, and provides a supportive and compassionate response with the goal of mitigating trauma and facilitating healing for victims. The following are central components of victim-centered response:

- Services are provided to victims/survivors in a sensitive, respectful, and nonjudgmental manner, where victims are listened to and believed;
- First responders and other practitioners are competent, compassionate, and knowledgeable about sexual violence, and recognize their response can either decrease or increase the trauma experienced by victims; and
- The safety and wellbeing of the victim is responders' priority, and victims have input in determining and voicing their needs and concerns at each step of the process.

Student Life Conduct Process

Failure to abide by your responsibilities and any University policies and procedures will be resolved through the Student Life Conduct Process. Many times, misconduct can be resolved informally, but situations may require a more formal procedure. The procedure is grounded in the concept of fairness and impartiality, thereby supporting the values of our community by addressing misconduct in a constructive and positive way. If University action is warranted, a student will receive a phone call and/or email to their student email account notifying them that a conversation is required.

As defined in 34 CFR 668.46 (j)(2):

Proceeding: The term proceeding is defined as all activities related to a non-criminal resolution of an institutional disciplinary complaint, including, but not limited to, fact-finding investigations, formal or informal meetings, and hearings. Proceeding does not include communications and meetings between officials and victims concerning accommodations or protective measures to be provided to a victim.

Result: The term result means any initial, interim, and final decision by any official or entity authorized to resolve disciplinary matters within the institution. The result must include any sanctions imposed by the institution. Notwithstanding section 444 of the General Education Provisions Act ([20 U.S.C. 1232g](#)), commonly referred to as the Family Educational Rights and Privacy Act (FERPA), the result must also include the rationale for the result and the sanctions.

The following options will be considered by the Office of Student Life:

Mediation - Incidents may be resolved through mediation – a voluntary, private and informal process.

Hearings - Two kinds of hearings are possible: an administrative hearing (appointed University officials) and panel hearing (representatives of the student body, faculty and administration act as panel hearing members). The purpose of the hearings is to come to an understanding of the misconduct by the student(s), determine responsibility and remedies. Hearings can be used to resolve minor disciplinary matters or more serious matters (not limited to theft, dangerous weapon possession, misuse of fire protection equipment, sexual assault, illicit use of drugs and repetitious misconduct) that may result in a student being suspended or dismissed from the University or residence hall. Hearings may be conducted by a designated hearing officer or board depending on the incident as determined by the Office of Student Life.

Hearing Process - Students are expected to obtain further details if they attend a hearing. The hearings will follow appropriate procedures to ensure a fair process, and parties will have the opportunity to present any facts to substantiate the claim, including witnesses.

Hearings will proceed in the absence of a respondent who was given proper notice, who does not request a postponement and who does not attend the hearing. No parent, guardian, legal counsel or person outside of the University community is allowed to appear at the hearing, except if criminal proceedings are occurring simultaneously.

To ensure a fair process, parties may request that community members assist and participate in the investigation and hearing process. Students, faculty or staff who agree to assist and/or attend the hearing with the party but do not speak at the hearing shall provide such assistance. In the event a party is unable to locate someone to act in this capacity, they may request the assistance from the Office of Student Life. The administrator or Hearing Panel will be responsible for assigning a remedy in the event it finds that a violation of the Statement of Responsibilities or University policy has taken place. Consideration of a student's entire disciplinary record at the University will be considered when designing an appropriate sanction.

Appeal Process - A student may appeal a decision made by a hearing concerning the finding of a violation or the remedy imposed within five (5) days of notification of a decision. To do so, the student must deliver a written explanation on the grounds upon which the appeal is made to the Office of Student Life. The burden of demonstrating an inequity in the hearing or remedy shall lie with the student. The responsibility of making a final decision will rest with the Office of Student Life.

Sanctions

The following sanctions may be imposed upon any student found to have violated the standards as defined in the Benedictine University Mesa 2021-2022 Student Handbook. This does not and cannot include all information that may lead to sanctions. Sanctions are defined and imposed as follows:

A. Warning: A written statement to the student indicating disapproval of their conduct or violation of regulations, and stipulating that continuation or repetition of such action may be cause for more severe action.

In such cases, room and board charges will not be prorated or refunded.

G. Community Service: The student will be assigned a task to complete that will, on many occasions, relate to the inappropriate behavior. A time frame will be set up for the completion of this task and the student will be assigned a supervisor to whom to report.

K. Expulsion: The student is informed in writing that they are permanently separated from the University.

Non-Sanction Resolutions

Interim Intervention: The University reserves the right to suspend a student on an interim basis when circumstances and facts indicate that the student's continued presence on the campus constitutes an unreasonable danger of harm or injury to institutional property, the student involved or others. Students may also be suspended on an interim basis while undergoing resolution by University or civil authorities.

Involuntary Withdrawal: A student may be subject to involuntary withdrawal from the University or from the residence halls if it is determined that the student is suffering from a mental illness and/or engages (or threatens to engage) in behavior which poses a danger of causing physical harm to self or others; engages in behavior which would cause property damage; impedes the lawful activities of others; or disrupts the community.

Student Off-Campus Criminal Conduct

A student attending a University-sponsored function off campus is subject to the same standards of conduct as those expected on campus. Because the University is located within the Mesa downtown community, any University student who has violated criminal laws also may be subject to University judicial proceedings. Violations of local, state or federal laws on campus may also result in the filing of criminal charges.

Preponderance of the Evidence

This standard of evidence means that a hearing must determine whether a complaint of sex discrimination is “more likely than not” to have occurred or 51% likely to have occurred. This standard applies for all complaints of sex discrimination, including sexual harassment and violence, because Title IX outlines standards for school disciplinary processes – not criminal complaints, which require the highest standard of evidence, “beyond a reasonable doubt.”

Emergency Preparedness Overview

Emergency Response and Recovery Team (ERRT) is responsible for numerous campus safety and violence prevention programming, to include the development and maintenance of the Emergency Procedures, the Emergency Operation and Business Continuity Plan, Campus Violence and Prevention Plan, mass emergency communications initiatives, and community training and awareness. The ERRT is charged with developing and updating plans to prepare the University community for the event of an emergency or disaster. Through consistent promotion, educational training, and awareness campaigns, the ERRT hopes to save lives, reduce injuries, minimize property damage, and assure and facilitate the restoration of essential operational and priority services. The keys to an effective Emergency Operations Plan are to communicate in a timely manner when an emergency or disaster is identified, and to train as many community members as feasible in the procedures for emergencies and disasters, and recovery.

The Emergency Procedures is presented in an easy to read single page document. Each box on the document identifies what to do in the event of a Medical Emergency, Fire, Severe Weather; Utility Failure; Hazardous Material Accidents; Suspicious Person, Suspicious Package, Sexual Misconduct and Active Shooter.

The Benedictine Emergency Procedures can be located at: <http://www.ben.edu/emergency-preparedness/upload/Mesa-Emergency-Procedures-one-page.pdf>

Emergency Warning

The safety of all faculty, staff, students and visitors to our campus is important to the University. The University has developed a process to notify the campus community in cases of emergency. While it is impossible to predict every significant emergency or dangerous situation that may occur on campus, the following incidents are examples which would warrant an immediate emergency notification after confirmation. These incidents include, but are not limited to: active shooter; fire; structural damage; communicable disease outbreak; and significant flooding.

Any emergencies occurring on or within any of the University’s Clery geography (see Geography Definitions) should be reported to Campus Safety by calling (602) 888-5516 or by calling 911 for outside emergency responders.

The emergency notification warning capability is designed to assist the University in immediately notifying the campus community upon confirmation of a significant emergency or dangerous situation occurring on or near the campus that involves an immediate threat to the health or safety of faculty, staff, students or visitors. A threat is imminent when the need for action is instant, overwhelming, and leaves no moment for deliberation.

The University will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system to the appropriate segment or segments of the campus community, unless issuing a notification will, in the professional judgement of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

Immediate notification to the campus can be accomplished through a variety of communications methods. Notification will be made by using some or all of the following multi-modal notification methods depending on the type of emergency:

- Fire alarms in the building are automatically activated in the event of a fire or can be manually activated by a pull station.
- BenAlert emergency notification system. These are a series of pre-scripted messages that provide instruction on what to do during a particular emergency and were developed by the Marketing and Communication department.
- Benedictine University at Mesa website notice <http://www.ben.edu/mesa/emergency/index.cfm> with emergency details posted.
- Benedictine University at Mesa main line at 602-888-5500 with emergency details recorded.
- Broadcast e-mail with the "Importance: High" option (message will appear with a red exclamation point in each user's inbox) and emergency details to #All Mesa Campus Adjunct Faculty; #All Mesa Campus Faculty; #All Mesa Campus Staff; #All Mesa Campus Student.
- The Mesa branch campus notification process. Each University office is responsible for creating and maintaining a notification process to ensure effective communication of emergency details.
- Campus closed circuit TV monitors.
- The Office of Student Life or his designee will post updates to Facebook and Twitter.
- Maricopa County Community Emergency Notification System (CENS) may provide telephone notification. For more information on how this system works, visit <https://www.maricopa.gov/1755/Community-Emergency-Notification-System->
- The Office of Student Life or designee will update the www.Cancellations.com website.

These may be updated hourly or daily as needed as details develop. Details may include general information; warnings or notices to have awareness of particular items; the status of classes, activities, and/or the campus or specific buildings; and for health-related incidents, information about relevant signs and symptoms of a health condition, protection and prevention measures, suspected or confirmed cases, isolation or quarantine, areas, and other pertinent items.

When on-duty officers become aware of a situation that may warrant the issuing of an immediate notification, the on-duty officer confirms (through response, investigation, or collaboration with first responders) that there is a significant emergency and then immediately contacts the Chief Executive Office for Mesa, who quickly evaluates the situation to determine if an alert is warranted, develops the content of the notification message, and then identifies the appropriate segment or segments of the campus community who will receive the notification. In some cases when there is no imminent threat, a conference call with the Emergency Response and Recovery Team (ERRT) to discuss issuing the emergency notification. An example of getting ERRT together would be a flood warning where the campus may need to close or have a delayed opening.

Campus Security has the ability and authority to issue an alert without delay and without further consultation for an active shooter incident. Pre-scripted messages have been developed to aid in rapid communication which can be sent via BenAlert when immediate danger or threat to the campus community exists and the need to advise the campus community members to act.

Follow-up communications will be provided when a threat is neutralized or effectively removed. Additionally, updates regarding a prolonged and ongoing emergency situation such as a health emergency (communicable disease outbreak) can be provided by creating a banner at the top of the University's webpage that would contain specific status update information along with links to federal, state and local health departments or other relevant entities.

If there is an immediate threat to the health or safety of faculty, staff, students or visitors occurring on campus, the University must follow its emergency notification procedures. The University that follows its emergency notification procedures is not required to issue a timely warning based on the same circumstances; however, the University must provide adequate follow-up information to the community as needed.

The BenAlert system will be tested at least each academic semester to ensure that all systems are working properly and that all have a working knowledge of the system. These tests will also be educational moments for the campus community to remind them that this system does exist, and that it is a working and functioning system that they can rely upon. In conjunction with at least one of the annual test notifications, information is shared with the campus community on what to expect when the notification is sent.

Faculty, staff and students are automatically enrolled in the BenAlert system (opt-out) when they are hired or are enrolled for classes. The BenAlert system will send out a call, text and email to all available data in the University's PeopleSoft system. Faculty, staff, and students can go into PeopleSoft via MyBenU to update their phone numbers and email addresses.

Timely Warning Notice

A Timely Warning Notice (TWN) is sent when a crime that poses a serious or continuing threat to members of the University community occurs within the Benedictine University Mesa Clery Geography (on campus, in the residence halls, public property near campus, non-campus property) and is reported to the University Police or other local law enforcement agencies. The University will immediately consider the safety of the community, determine the content of the notification and initiate the notification system. The TWN is sent primarily by blast email to all students and employees on campus. TWNs can also be sent/communicated via BenAlert and a variety of other notification methods, as outlines in the Emergency Warning section of this report. The Chief of Police distributes TWNs to the University community.

In general, University Police will issue TWN in the following circumstances:

1. It is a Clery-reportable crime or University Police determines that a TWN is otherwise appropriate;
2. The crime was reported to University Police either directly or through local law enforcement; and
3. There is a serious or continuing threat to the University community.

Decisions about whether to issue a TWN, the information to include, and the form in which it will be issued, will be made on a case-by-case basis by University Police, in light of the relevant circumstances. In addition to issuing TWNs for campus crimes, University Police will provide prevention strategies to inform the campus community of actions to take, to ensure a safe environment.

Below is a table identifying the difference between an Emergency Notification and a Timely Warning Notice and when it is necessary to send out messages.

	Timely Warning Notice (TWN)	Emergency Notification (EN)
Legal Standard	Potential ongoing or serious threat	Immediate threat to health and safety
Circumstances	Clery-reportable crimes that have been reported (occurred in past)	Clery-reportable crimes as well as other types of emergencies (happening right now or about to happen)
Audience	Community-wide	Can send to a segment of the community, if appropriate
When Issued	As soon as pertinent information is available	Upon confirmation of emergency (when possible)
Follow-up	Not Required	Required

Public Safety Notices

A Public Safety Notice (PSN) may be sent to the University community for general crime prevention purposes, to inform the community of crimes and/or incidents that are not generally time sensitive or considered to be a continuing threat, but important to be aware of, and/or to inform the University of incidents occurring on, around, or even off campus that do not meet the requirements or specifications for distribution of a TWN, as outlined above.

A PSN may be sent via blast email to all students and employees on campus. A PSN is written and distributed to the University community by Campus Safety or designee, and the message is reviewed and approved by the Chief Executive Officer of Mesa Operations and/or the Chief Compliance Officer and Legal Counsel.

Updates to the University community about any particular case resulting in a PSN, when deemed necessary, may be distributed via blast email, or posted on the University's website.

Access to and Security of Campus Facilities

Academic and Administrative Buildings:

The Mesa campus is open to the public when academic classes are in session. After hours, buildings are secured and only persons with authorized access permission can enter or remain in the buildings. During holiday breaks all buildings are locked and if a staff member needs access to a building to get to their office they are instructed to pre-arrange a time with the Facilities Manager who will allow entry into the building.

Residence Hall:

Access to Alhambra is restricted to residents, their approved guests, and other approved members of the University community. Residents gain entry by swiping their student ID card at the card access readers and provide a safe and secure lodging environment with visitation restrictions. Visitors must be chaperoned at all times by a resident student while in the residence hall. Security measures shall include, but are not limited to; access control measures, and security cameras in the hallways. The campus is well-lit and inspected daily by the Facilities Manager to ensure buildings and grounds are safely maintained.

Maintenance of Campus Facilities

The Mesa campus facilities are maintained in a manner that minimizes hazardous conditions. Campus Safety regularly patrols campus and reports malfunctioned lights and other unsafe physical condition to the Facilities Manager for correction. Campus community members can additionally report hazards directly to the Facilities Manager.

The campus' overall safety and security is supplemented by a variety of technological systems including:

- a campus-wide master key system for all lockable doors;
- exterior building and parking lot lighting;
- a CCTV system in various campus buildings;
- residence hall card access control;
- fire alarm system;
- intrusion detection;
- radio communications between Campus Safety, Residence Life, Athletics and Facilities Management;
- written building access and room opening protocol; and
- photo ID cards for faculty, staff, students, contractors and visitors.

All systems are controlled and audited by the Facilities Manager and Campus Safety.

A map of the campus is available on the University's website at: <http://www.ben.edu/mesa/about/location.cfm>

Unlawful Entry and Trespassing

Persons making or attempting to make unauthorized entry into property owned or controlled by the University or University events are subject to arrest. "No trespassing – official business only" signs are posted at all entrances to the campus and the University Police and/or Residence Life staff may issue "no trespass" notices verbally or in writing, delivered in-person or via postal mail. The following conduct is prohibited:

- Unauthorized possession or use of campus keys, access cards or identification cards.
- Violation of published University regulations including those relating to entry and use of University facilities, and any other regulations, which may from time to time be enacted.
- Violation of rules applicable to residence halls.
- Violation of local, state, or federal laws pertaining to unlawful entry and trespassing.

Rules and Policies Regarding Possession, Use, and Sale of Alcohol

The University seeks to encourage and sustain an academic environment that respects individual freedom and promotes the health, safety and welfare of all members of its community. In keeping with these objectives, the University has established the following policy governing the possession, sale and consumption of alcohol beverages by members of the University community, which conform to the laws of the State of Arizona. The University's alcohol policy and programs are intended to encourage its members to make responsible decisions about the use of alcoholic beverages, and promote safe, legal and healthy patterns of social interaction. The University prohibits the following on property owned or controlled by the University or as part of any on-campus or off-campus University activity.

- Possession and/or consumption of alcoholic beverages by persons less than 21 years of age;
- Selling, distributing or otherwise providing alcoholic beverages to and/or by anyone less than 21 years of age;
- Driving under the influence of alcohol;
- Consumption of alcoholic beverages by persons 21 years of age or older in any public area or outside of designated areas at authorized University events;
- Public intoxication of any person, regardless of age;
- Possession of containers that previously contained alcoholic beverages; and
- Possession of common source containers, of alcohol, whether full or empty, such as kegs, beer balls, or boxed wine.

Alcohol education programs are conducted routinely at the University. Students having trouble with alcohol or drug use are encouraged to talk with a staff member in the Office of Student Life, or other members of the University staff. External resources are also available.

Drug and Alcohol Abuse Prevention Program

It is the policy of Benedictine University Mesa that the unlawful manufacture, distribution, dispensing, possession, or use of illicit drugs and alcohol is prohibited by students and employees on University property, as part of its activities or in facilities controlled by the University. The University has a vital interest in maintaining a safe and healthy learning environment for the benefit of all students, employees and guests. This information is in accordance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989 and at a minimum is required to be distributed annually in writing to each employee and student. On a semiannual basis, an e-mail notification is sent by the Emergency Preparedness Manager with website links to the Annual Security and Annual Fire Safety Reports, the Alcohol and Drug Policy and the Drug and Alcohol Abuse Prevention Program. The University provides information for students and employees regarding illicit drug and alcohol abuse, including standards of conduct, health risks, state and federal penalties, and available drug or alcohol counseling and rehabilitation services. This information can be found at:

<http://www.ben.edu/about/upload/Drug-and-Alcohol-Abuse-Prevention-Program.pdf>. Printed copies of this information are available for public view with the Chief Executive Officer of Mesa Operations, located at 225 E. Main Street, Mesa, AZ 85201 on the main floor of Gillett Hall (Room 120).

Illegal Drugs and Drug Paraphernalia

The University prohibits the unlawful manufacture, distribution, dispensation, sale, possession or use of any illicit drug by any of its students, employees in its workplace, on its premises, or as any part of its activities. Illicit Drugs are defined as drugs that are illegal to use, possess or produce; and the unlawful possession, use and sharing of prescription drugs; as defined in Benedictine University's Drug and Alcohol Policy. Anyone violating the law may be turned over to civil authorities for prosecution and will be subject to all of the University's disciplinary procedures.

Criminal penalties include fines, imprisonment and, in certain cases, the seizure and forfeiture of the violator's property. In addition, federal and other forms of financial aid may be forfeited.

Arizona law regarding cannabis changed on November, 2020. Benedictine University policy continues to prohibit students, employees and members of the general public from possessing, using or distributing marijuana in any form (by inhalation, topically, or orally) on any of the University's campuses or facilities and during any University activities (on or off campus).

As a recipient of federal funding, such as financial aid and federal grants and contracts for research, the University is required to continue to prohibit the use, possession and distribution of all federally controlled substances – including marijuana. Consequently, such activity remains prohibited by University policy.

At the federal level, the Controlled Substances Act states that the growing and use of marijuana is a crime and federal enforcement agencies can prosecute users and growers of marijuana, regardless of state law. In addition to being a federal offense, the use of medical marijuana in the workplace and on campus is restricted by additional federal laws, such as the federal Drug Free Schools and Communities Act and the Drug-Free Workplace Act. Even in the absence of federal law, the possession, use and distribution of these substances would be inconsistent with Benedictine University's dedication to assuring the safety, security and well-being of everyone in the University community.

Exceptions

The University recognizes that there may be activities related to education or research that may appear to be in violation of the policy (e.g., physical fitness activities and theatrical productions). In these cases, the department or organization coordinating the activity is then responsible for obtaining written approval (annually) from the Campus Safety in advance before following through with the activity.

Any non-resident invited to campus with an instructional purpose must obtain permission for weapon possession in writing from the University's chief of police while on campus.

Missing Student Notification Policy

This policy contains the official notification procedures for the University concerning missing students who reside in on-campus housing, in accordance with the requirements of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (20 USC § 1092 (f)) (or the "Clery Act", which previously was known as the Crime Awareness and Campus Security Act of 1990). The purpose of this policy is to promote the safety and welfare of students who reside in on-campus housing. This policy is mandatory and must be adhered to by all University faculty, staff, and students.

1. In the event that a member of the University community has reason to believe that a student who resides in on-campus housing is missing, he or she shall **immediately** call 9-1-1 or notify the Campus Safety at **602-888-5516**. Campus Safety will collaborate with the Mesa Police Department to generate a missing person report and initiate an investigation. In addition, Campus Safety will report the missing person to appropriate Student Life staff on campus.
2. Any missing student report must be referred immediately to Campus Safety and to the local law enforcement agency that has jurisdiction in the area. The local law enforcement agency for Benedictine University Mesa is the Mesa Police Department. The Mesa Police Department is located at 130 N. Robson, Mesa, Arizona 85201 and can be reached at 480-644-2211.
3. In addition to registering emergency contacts, students residing in on-campus housing have the option to identify confidentially an individual to be contacted by the University in the event the student is determined to be missing for more than 24 hours. Students who wish to identify a confidential contact can do so by completing [the Missing Student Contact Information](#) form found on the Residence Life webpage under the Resources section.
4. The contact information will be confidential, accessible only by authorized Student Life staff and Campus Safety, and may not be disclosed outside a missing person investigation.
5. If the missing student is under the age of 18 and is not an emancipated individual, staff will notify the student's parent or legal guardian **immediately** after Campus Safety determine that the student has been missing for more than 24 hours.

6. After investigating the missing person report, should Campus Safety determine that the student is missing and has been missing for more than 24 hours (regardless of whether the student has identified a contact person, is above the age of 18, or is an emancipated minor). Campus Safety or a representative from Student Life will notify the Mesa Police Department. In addition, the student's emergency contact will be notified no later than 24 hours after the student is determined to be missing, unless the Mesa Police Department was the entity that made the determination that the student was missing.
7. If a student has been determined missing for more than 24 hours, in addition to the above notifications, specific procedures to follow include:
 1. If the student has designated a confidential contact, notifying that person within 24 hours that the student is determined to be missing.
 2. If the student is under 18 years of age and is not emancipated, notifying the student's custodial parent or guardian and any other designated contact person within 24 hours that the student is determined to be missing.
8. Regardless of whether the student has identified a contact person, is above the age of 18, or is an emancipated minor, informing the Mesa Police Department within 24 hours that the student is determined to be missing.

Crime Prevention, Fire Safety, and Safety Awareness Programming

The University offers many programs designed to inform students and employees about campus security procedures and practices and the prevention of crimes. A common theme of all awareness and crime prevention programs is to encourage students and employees to be responsible for their own safety and for the safety of others on campus. Various campus organizations and departments throughout the year sponsor crime prevention programs on personal safety and security. These programs include general crime prevention and security awareness programs, such as safety education programs and discussions about topics such as alcohol abuse, sexual assault awareness and prevention, relationship violence awareness and prevention, bystander intervention, fire safety emergency response and evacuation procedures, and theft prevention. Residence Life staff hold programs in residence halls to explain campus security and safety, campus policies, and expectations related to student conduct, behavior, fire safety measures, and procedures. During new student orientation, crime prevention and security awareness procedures are discussed. New employee orientation includes the distribution of crime prevention and fire safety materials to all new employees during scheduled orientation sessions throughout the year. Crime Prevention and security awareness presentations are conducted when requested by various groups, including students and employees of the University.

Several crime preventions, fire safety, and safety awareness events occur each year. In the fall semester, fire evacuation drills are conducted in each academic, administrative and resident hall building. These are live drills where students, faculty, staff and visitors all evacuate the buildings tested to assemble and get further instruction from the Campus Safety. In the spring semester, shelter in place drills are conducted. Emergency team members walk through each building checking to see if all students, faculty and staff are practicing the proper procedures, which are emailed prior to the drill. Any students, faculty, staff or visitors in open areas during the drill are gathered and get an explanation of what to expect and what they should do to protect themselves.

Additional safety awareness and crime prevention training/programming occurs throughout the year during October, January and April specifically for Domestic Violence Awareness month (October), Stalking Awareness Month (January) and Sexual Assault Awareness Month (April).

Collection of Crime Statistics/Crime Log

The Chief of the Benedictine University Police or designee is responsible for the gathering of crime statistics annually from the Lisle and Mesa campuses. In addition, the Chief or designee is responsible for contacting the area municipalities where off-site class instruction takes place to retrieve any crime information, which would be part of our Annual Security Report.

Campus Safety, in accordance with the Clery Act, maintains a daily Crime Log, and prepares and distributes statistics annually on all reported occurrences. The Clery Act requires the annual publication of crime statistics for the previous three calendar years.

Pursuant to the Clery Act, the crime statistics include reports of arrests for, and disciplinary actions arising from selected crimes. Crimes that occur on campus (including in residence halls), areas contiguous to University property (including on the public way), and hate crimes are included. Alcohol and drug incidents, and sexual assaults, are located in the report.

Reasonably Contiguous – refers to a building or property an institution owns or controls that is in a location that students consider to be, and treat as, part of the "campus." The University will consider locations within one mile from the core or main campus border to be reasonably contiguous with the campus.

Annual Fire Safety Report

The Annual Fire Safety Report is required by (HEOA of 2008) for any Title IV institution that maintains an on-campus student housing facility. Per HEOA, an institution that maintains an on-campus student housing facility must collect fire statistics, publish an Annual Fire Safety Report, and keep a fire log.

Procedures for Preparing and Distributing the Annual Fire Safety Report

BUPD in Lisle collects fire statistics, composes the Annual Fire Safety Report for the Mesa campus. The Chief Executive Officer of Mesa Operations maintains a log of fire statistics. The Annual Fire Safety Report is published annually by October 1 and contains three years of fire statistics in accordance with (HEOA). This is the 2021 Annual Fire Safety Report, which contains the statistics for calendar years 2018-2020.

Distribution and Notification of Annual Fire Safety Report

The Annual Security and Fire Safety Reports are sent twice during the academic school year, once by October 1 and by January 31. An e-mail notification is sent to all current students, faculty, and staff providing the website <http://www.ben.edu/mesa/campus-community/public-safety.cfm> to access to this report. Upon request:

Residence Life - Safety Brochure

The Mesa Campus provides its students with a brochure entitled [Resident Fire Safety Brochure](#) detailing fire safety tips, which also are addressed in this Report.

On-campus Student Housing Fire Safety Systems

The on-campus student housing facility is the Alhambra Hall. The facility is equipped with modern, interior fire alarm systems with horns and strobe lights, which are monitored 24 hours per day, 7 days per week. The building is equipped with automatic full sprinkler and smoke detection systems, fire extinguishers, and evacuation placards. These systems are tested at least once per year.

Policy on Portable Electrical Appliances and Open Flames

Portable Electrical Appliances - The following items are not allowed: space heaters, cooking appliances with heating elements, toaster ovens, outside antennas, halogen lamps, open-coil devices or satellite dishes.

Open Flames – The following items are not allowed: incense and candles.

Benedictine University Smoking/Tobacco Policy

The Benedictine University Smoking/Tobacco Policy is in consideration of the health risks to community members, environmental impact and community member feedback with the prohibition of tobacco products, smoking and vaping use.

The University prohibits the use of all tobacco products, including cigarettes, cigars, pipes, smokeless tobacco and electronic cigarettes on all our campuses. In addition to all buildings, it applies to all outside property and grounds. In a kind and courteous manner, each community member will be responsible to remind individuals of the University policy. This policy will be enforced like any other student conduct/employee violation. Individuals desiring to smoke may do so in their car.

This policy change reinforces our commitment to preserving and improving the health of our students, faculty, staff and guests. The commitment to a tobacco-free campus is a responsibility we all share together, whether you are a tobacco user or not. In making this decision, we reflected on our Benedictine roots of addressing the common good of the community and also listening to the community.

General Residence Hall Fire Safety

All of the University's on-campus residential student housing facilities are completely covered by integrated automatic sprinkler and hard-wired addressable fire alarm systems.

In addition, on-campus residential facilities have the following life safety systems: portable fire extinguishers, emergency lighting, emergency exit signs and doors, and emergency phones. A quality control program ensures that each building is inspected by trained building inspectors on a regular basis to ensure that these systems are in working condition, and includes a yearly fire alarm system test and inspection.

Each resident is given a copy of the Resident Fire Safety Brochure, which includes information on fire safety and what appropriate action to take during a fire alarm or fire emergency. The Emergency Response and Recovery Team, Campus Safety, Mesa Fire Department and Facility Operations conduct fire drills in the fall semester. Due to the COVID pandemic, in-person fire drills were not conducted. The fire alarms and sprinkler systems were tested for 2020.

If a fire occurs in a University building, community members should immediately notify the local fire department by dialing 9-1-1. During business hours, Campus Safety along with Mesa Fire Department will initiate a response to all fire alarms or reports it receives. After hours, Mesa Fire Department will respond to all fire alarm calls.

Fires should immediately be reported to 9-1-1. If a member of the University community finds evidence of a fire that has been extinguished, and the person is not sure whether Campus Safety has already responded, the community member should immediately notify Campus Safety to investigate and document the incident. Fire alarms alert community members of potential hazards, and community members are required to heed their warning and evacuate buildings immediately upon hearing a fire alarm in a facility. Use the nearest stairwell and/or exit to leave the building. Do not use the elevator. Community members should familiarize themselves with at least two ways out of each building.

Evacuation Procedure for Students and Employees in the Case of a Fire

Should you discover a fire, remember **RACE**:

- **R**emove anyone from immediate danger.
- **A**ctivate the fire alarm system by pulling the nearest fire alarm pull station, call 9-1-1 and then the Campus Safety at 602-888-5516.
- **C**ontain the fire by closing doors.
- **E**vacuate the building.

All buildings are equipped with fire alarm systems, which activate at certain temperature levels or smoke conditions. However, many small fires will require a fire alarm pull station to be manually activated.

Should you be in a building when an alarm is activated, take the following actions:

- Evacuate **IMMEDIATELY** in a calm, orderly manner closing doors.
- Assist those with disabilities in exiting the building and ensure, to the extent possible, that other occupants know to evacuate.
- After evacuating the building, proceed to the evacuation assembly area for that particular building. Supervisors, faculty and resident assistants will take a head count at the evacuation area and notify the Mesa Fire Department if anyone is unaccounted for. Be prepared to move to another location if the evacuation assembly area is deemed to be too close to the building. Help keep roads, fire lanes, hydrants and walkways clear for emergency vehicles and crews.

- If you become trapped in a building during a fire, stay near the floor where the air will be less toxic. Shout for help at regular intervals to alert emergency rescue crews of your location. Remain calm and do not panic.
- Do not use the elevators;
- Exit by nearest safe stairway;
- Try to exit the room, feel the doorknob
 - If it is hot, do not open the door
 - If the doorknob is not hot, brace yourself against the door and crack it open
 - If there is heat or heavy smoke, close the door and stay in your room;
- Don't panic;
- Close all doors;
- If trapped in a room or office, keep the door closed and be prepared to signal your presence from a window;
- If you are on fire, stop, drop and roll, wherever you are. Rolling smothers fire;
- Cool burns. Use cool tap water on burns immediately. Do not use ointments. If skin is blistered or charred, call for an ambulance; and
- Be aware of obstacles that may be in corridors or blocking exits. Storage of any items in these locations is strictly prohibited. Blocked exits and obstacles impede evacuation, especially during dark and smoky conditions.

A person's first action should be to evacuate the building. If a fire is small and appears controllable, use a nearby fire extinguisher to combat the fire.

Remember **PASS**:

- **P**ull the pin from the fire extinguisher.
- **A**im the fire extinguisher at the base of the fire.
- **S**queeze the handles together.
- **S**weep the spray from side to side across the base of the flames

If the first fire extinguisher used does not put out the fire, EVACUATE the building. DO NOT attempt to use a second fire extinguisher.

It is the policy of Benedictine University Mesa to have defined procedures to protect the life and safety of students, staff and guests should there be a hazard that causes the University to decide to evacuate.

If you hear the direction to "EVACUATE" over the classroom telephones, or an administrator announces the evacuation in person, or by any other means of communication, you are to follow the procedures provided by the evacuation announcement.

What to do if outside during a building evacuation:

1. Do not enter any building being evacuated.
2. Get to the Evacuation Assembly Area for the building being evacuated (if you are near a building).
3. Listen for specific directions.
4. An authorized person will announce via campus communication system or bullhorn when the building is safe to reenter.

Evacuation of the Mobility Restricted and Mobility Impaired

Mobility Restricted Individuals

Mobility restricted individuals are those with disabilities which might impede rapid building evacuation. Examples include those who are blind or deaf, or whose mobility is restricted by use of walkers or crutches. Assistance can be provided by guiding them to a stairwell, waiting until a clear passage is established and helping them down or up the stairs to a designated meeting area.

Mobility Impaired Individuals

Mobility impaired individuals are those with disabilities which require the use of wheelchairs or other mobility devices. To assist those individuals, proceed as follows:

1. Call Campus Safety at 602-888-5516. Provide as much information as possible. Most importantly, provide the individual's location.
2. Move the impaired individual near the stairwell and await assistance if there is no immediate danger within the vicinity of the stairs.
3. If the hazard becomes life threatening, move the individual into a room and close the door. If evacuation is deemed necessary, attempt to gain volunteer assistance and proceed to evacuate by way of the established route. Inform Campus Safety of the individual's new location.

Campus Evacuation

Should it become necessary to evacuate the entire campus, the decision to implement these procedures rests with the Chief Executive Officer of Mesa Operations. In situations requiring immediate action, the Mesa Police or Fire Department also can order a local area evacuation. When evaluating possible evacuation, consideration will be given to the following:

- Specific threat - Bomb, fire, storm, earthquake, explosion, hazardous materials incident
- Context - Time of day, likelihood
- Recommendations of the first responder officials

In all cases when the decision has been made to evacuate the following basic procedures will be used.

1. The campus will be evacuated in stages, beginning with the areas that are in the immediate vicinity of the threat.
2. Other areas may then be evacuated, depending on the nature of the threat.
3. A gradual evacuation is preferable to a total, immediate evacuation, if possible, as it triages the populations most in danger, minimizes the likelihood of gridlock and congestion, and provides for ingress of emergency vehicles and personnel.
4. In all cases, evacuees would be directed away from the vicinity of the threat.

Policy on Fire Safety Education and Training Programs for Students and Employees

Fire safety education programs for all students in on-campus housing and all employees that have an association with on-campus housing are held at the beginning of each academic year and throughout the calendar year. The Emergency Preparedness Manager provides a Residence Life Safety brochure, which is distributed, to student residents. Campus Safety evaluates the effectiveness of the fire evacuation drills, and makes recommendations for improvement to University employees including the Residence Life Staff. If it is determined additional training of employees is needed, Campus Safety will coordinate the training.

The Mesa Fire Department is present during all evacuation drills. The Chief Executive Officer of Mesa Operations, working with Campus Safety, conducts training sessions, which include fire extinguisher training, evacuation planning and execution, educational materials, informational displays/booths, new employee orientation, publishing and posting of the University's Emergency Response and Recovery Plan annually, investigations, and referrals regarding fire safety issues. Training of Student Life Staff is conducted each semester for new members. The Mesa Fire Department also may provide awareness and educational programming. If a fire occurs, students are instructed to leave hazardous areas via the evacuation routes and get to a predetermined location before calling 9-1-1 for help. They are to remain in that location so First Responders can determine whether all students have left the building. This information also is provided in the University's Emergency Response and Recovery Plan, which is updated and published annually.

Who should students and employees notify in the event of a fire?

- Dial 9-1-1 Mesa Fire Department
- Activate fire pull-station
- Dial 602-888-5516, Campus Safety
- Chief Executive Officer of Mesa Operations 602-888-5507

Future Improvements in Fire Safety

The University has adopted the National Incident Management System (NIMS) and continues to train students, employees and campus first responders in fire/disaster response and recovery. The University plans to continue student and employee training provided by the Federal Emergency Management Agency (FEMA), and emergency/disaster response and recovery. Fire evacuation drills in the residence facility will be enhanced by utilizing trained Resident Assistants.

Definitions

Cause of Fire – The factor or factors that give rise to a fire. The causal factor may be, but is not limited to, the result of an intentional or unintentional action, mechanical failure or act of nature.

Evacuate - Is a temporary and controlled rapid removal of people from a building, disaster area or campus as a rescue or precautionary measure. If the removal extends to more than a few months or becomes permanent, it is called “relocation.”

Fire - Any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.

Fire-related Death – Any instance in which a person:

1. Is killed as a result of a fire, including death resulting from a natural or accidental cause while involved in fire control, attempting rescue, or escaping from the dangers of a fire; or
2. Dies within 1 year of injuries sustained as a result of the fire.

Examples of fire-related deaths:

- Lung damage due to smoke inhalation
- Heart problems due to stress or exertion
- Getting struck by a falling object
- Getting burned by fallen wires
- Being killed by jumping out a window

Fire-related Injury – Any instance in which a person is injured as a result of a fire, including an injury sustained from a natural or accidental cause while involved in fire control, attempting rescue, or escaping from the dangers of the fire. Include as a fire-related injury if treated at a medical facility, including Student Health Services, individuals who are transported to a medical facility (even if they refuse treatment at the facility), individuals who are treated at a temporary medical facility that is set up at the fire site and individuals who are treated in an ambulance. Do not include as a fire-related injury if individuals who appear to be injured but refuse to be transferred to a medical facility and individuals more than one time for a single fire. If an individual is treated at a medical facility, and is later transferred to a different medical facility, count this as one person with fire-related injuries.

Fire Log - Contains the date the fire was reported; the nature of the fire; the date and time of the fire; and the general location of the fire.

Intentional Fire – A fire that is ignited, or that results from the deliberate action, in circumstances where the person knows there should not be a fire. Example – fire in a dorm restroom has been investigated by fire authorizes and determines to be arson. Perpetrator used matches to ignite paper towels.

Official - An official is any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution.

Overhaul – Is the practice of searching a fire scene to detect hidden fires or sparks which may rekindle, and to note the possible point of origin and cause of ignition.

Public - Any university student, employee or, any person not associated with the institution.

Undetermined Fire – A fire in which the cause cannot be determined.

Unintentional Fire – A fire that does not involve an intentional human act to ignite or spread into an area where the fire should not be.

Value of Property Damage – The estimated value of the loss of the structure and contents, in terms of the cost of replacement in like kind and quantity (replacement value, not market value). This estimate should include contents damaged by fire, and related damages caused by smoke, water, and overhaul; however, it does not include indirect loss, such as business interruption.

Emergency Building Evacuation Drills

Fire/emergency building evacuation drills are conducted annually in the fall semester in our residence halls, academic and administrative facilities. **In 2020, due to the COVID pandemic fire drills were not conducted in the residence hall or academic facilities.** Drills are conducted to familiarize occupants with emergency egress from a building and to establish conduct of the drill to a matter of routine. Drills will include suitable procedures, such as potential room-to-room checks, to ensure that all person's subject to the drill participate. Any person who fails to participate in a drill may be subject to disciplinary action by the appropriate authority. In the conduct of drills, emphasis shall be placed on orderly evacuation rather than speed.

Drill shall be held at expected and unexpected times, and under varying conditions to simulate the unusual conditions that can occur in an actual emergency. Participants shall relocate to the evacuation assembly area located outside the building and remain in that location until the all-clear signal Campus Safety, Mesa Fire or University authority, give further instruction.

Fire Investigations

Trained University personnel or the fire investigation officer within the Mesa Fire Department investigates every fire that is not known to be accidental (such as a cooking fire). Fires determined through investigation to be willfully or maliciously set are classified as arsons for Clery reporting purposes.
